WE WANT TO PROMOTE YOU!

Dear Creator,

I have 2 questions for you, and I would love to hear an honest answer.

As you know I have a website and I want to make it like a Net-a-Porter but for dolls. Meaning my goals are to attract fashion creators to sell on my website.

First question is:

Are you willing to trust a collector that has a website and it's offering you a possibility to have a customized page on their website, and the sales area (where your creations will be sold) with the following:

- I will create an artist page for you (with description, previous collection, about the artist).
- You can sell as many styles as you want there is no limit. And also no time frame when you can submit a fashion.
- You have to make minimum 2 pcs per style (not oak) and deliver them to me.
- I will take pictures of the creations (to have a cohesive look of the sales page) I advise to take your own pictures before sending them to me.
- I will promote the fashions on my Instagram page, Facebook page and groups. (you can also make your own promotion either way you like it – but in the end the link for the sale will have to lead to my website)
- I will handle the shipping as well as transferring the money to you as soon as the payment is received from the final customer

Second question is:

How much are you willing to pay for such a service?

My personal thought is to have a 10% commission for each sale and a sole payment of 100\$ for the artist page creation. The paypal transfer fee will be supported by the artist. (or you can tell me how much you want for the fashion, and I will add the extra percent to cover the commission)

All the points above can be negotiated, you can make proposals, and any ideas are welcomed!

Thank you for your time to read this and looking forward to an answer back to office@andymydesigns.com.

Best regards ,
